

Programm:

```
prane_partheev1@PARTHEEV: x + v
GNU nano 8.7.1
#include <stdio.h>
#include <string.h>

int main() {
    char input[200];

    printf("Enter text: ");
    fgets(input, sizeof(input), stdin);

    input[strcspn(input, "\n")] = '\0';

    printf("Input: %s\n", input);

    return 0;
}
```

OUTPUT:

```
prane_partheev1@PARTHEEV:~$ nano skill5.c
prane_partheev1@PARTHEEV:~$ gcc skill5.c -o skill5
prane_partheev1@PARTHEEV:~$ ./skill5
Enter text: welcome
Input: welcome
